RULES IN USE

1. WARHAMMER 40,000 EVENT COMPANION

The Event Companion is the primary organised-play framework for Winter Clash. Players should be familiar with its mission sequence, Force Disposition requirements, battlefield creation and terrain layouts.

2. CURRENT OFFICIAL RULES

Use the current Core Rules, faction rules, codexes/faction packs, Munitorum Field Manual, FAQs, errata and balance updates that are legal at the Winter Clash rules cut-off.

3. CHESS CLOCKS

If any player wants to use a clock, then it must be used. If you do not use a chess clock then complaints about slow play cannot be dealt with. Judges reserve the right to enforce the use of a chess clock on any player.

ALL UNDEFEATED PLAYERS MUST USE A CLOCK FROM ROUND 4.

4. SCORING

Scoring will be done inside the Best Coast Pairings App using Battle Points.

5. PLAYING BY INTENT

Warhammer 40k is generally played using intent. This is considered to be the standard at Glasshammer unless a player declared they would prefer to play the game strictly adhering to measurements and timings. If a player does not confirm this is how they would like to play all judge rulings will be made with intent in mind.

ARMY ROSTERS & FORCE DISPOSITIONS

The current Event Companion requires a player to select one Force Disposition available to their army and record it on their roster. That selection remains fixed for the event.

LIST SUBMISSION

Submission deadline is Sunday 21st of February until 23:59, late or incorrect submission may be subject to penalty.

ROSTER REQUIREMENTS

Please make sure that your list is **VALID** inside the 40k app and your disposition as well as **LEADER/SUPPORT** units are attached to their units.

MODELS & REPRESENTATION

3D printed, 3rd party and converted models are welcome, however they need to retain the original models size and proportions, please contact us at elite@glasshammergeaming.co.uk if you are not sure.

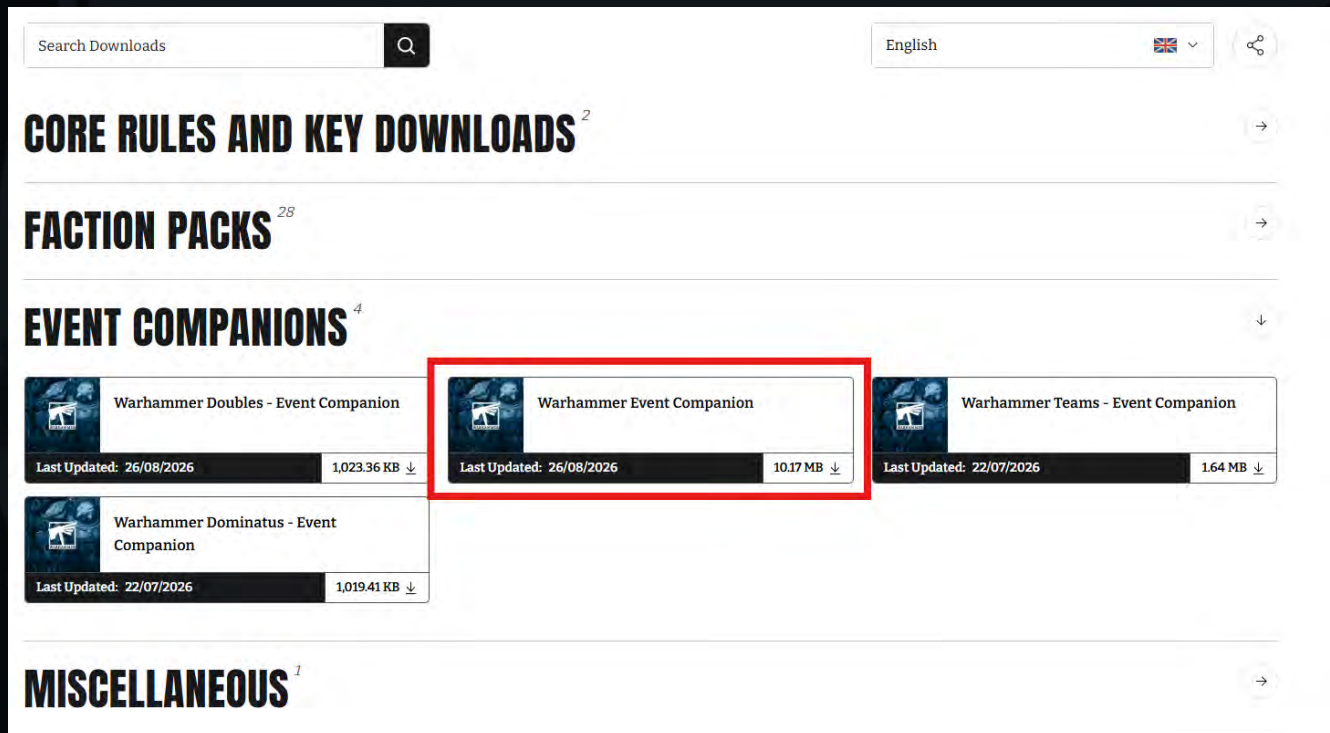

All armies must be **fully painted** and be fully **WYSYWIG** with no exceptions

MAP LAYOUTS

Map layouts can be find here:
